DIGITAL INNOVATION

Building Cutting edge Technology Solutions
across Web, Mobile, Cloud, RPA and Chatbots.

Enterprise

Government

SMEs

Agencies

Unicorns

Startups

OUR VISION

Using bleeding-edge technologies, past experience and global software development processes, help our clients and partners - create, improve and maintain value-driven digital products for their consumers.

OUR MISSION

To offer digital services across product development lifecycle at revolutionary and economic price, so that each business can run more efficiently.

OUR DNA

HOW WE WORK, COLLABORATE & DELIVER

Innovation

We value innovation in all our work with stakeholders and partners. This allows our alliance to be agile and thrive through creativity and ingenuity.

Integrity

We value and promote integrity in all our actions, partnerships and relationships. It ensures we remain honest, fair and do the right things for the right reasons.

Partnerships

We value and understand that partnerships is central to who we are and what we do. All our actions are centered around building deep sustainable relationships.

Responsibility

We accept responsibility for our own actions, model appropriate behaviors and treat others with kindness and respect.

Respect

We nurture and model respect within areas - self respect, respect for others, and respect for environment.

LEADERSHIP

Manish Gidwani

Co-Founder & Sales Head

Manish Kungwani

Co-Founder & Technology Head

“

If you have the goal to **DELIVER AN EXPERIENCE** so great that the customer will return and recommend you, then you're on the path to success.
